

Safari Island Resort Maldives and Luxury Boats

A 20 minute seaplane flight takes you to Safari Island Resort located in the heart of North Aril Atoll. It is approximately 60km from Ibrahim Nasir International Airport. The island is very tiny, you can easily walk around in a few minutes. One side of the island is a clear lagoon and a rich house reef on the other. A thread of 15 Semi-Water Bungalows run on one tip of the island. The opposite end is a jetty leading to 39 Water Bungalows. The 30 Beach Bungalows are on the island part in exotic green vegetation including palm trees. All the 84 rooms come with sea view.

Diving and Snorkeling

The house reef is just minutes from the shore. Safari Island Resort is one of the few islands having house reef so close to the island. It is definitely convenient for addicted snorkelers who spend most of the time enjoy at sea. Despite the closeness to the reef, the opposite side of the island have no reef and just clear blue waters if anyone is interested. The lagoon is ideal for watersports.
